The Ultimate Ted Kaczynski Research Document

This work draws, for the most part on two books, *Truth versus Lies* by Ted Kaczynski and *Every Last Tie* by his brother David Kaczynski. The aim is to provide a clearer timeline of events from the beginning of Ted's life to the end, that readers may have been hoping to get from one of or both these books. I have also amassed and drawn on a vast resource library of other related sources, from the Kaczynski brothers and others involved or interested in this case.

I aim to provide a clearer answer to the gnawing question for many of, what all the important steps were that lead up to Ted Kaczynski becoming violent.

Towards the end of the book there is also a critique of his political philosophy. Plus, an argument for a pro-technological anarchist society worth striving for.
